

After School Newsletter

Dear After School Families:

We have recently started to work in the garden. We started turning the soil in our garden box so that we can plant cabbage. We go everyday to the garden to make sure that all the plants getting water and we will be observing the progress of the cabbage. The children have been showing interest in planting flowers, fruits and vegetables. We will be gardening!

We have recently introduced to the children a Calming time. We have Calming time a few minutes after coming inside from playing outside. The children lie down on the floor with some peaceful music on and breathe in slowly. We have been coming inside fired up and forgetting that when we are inside that we use softer voices and walking feet. They children have been enjoying just a little resting time before we read our story.

Our March Focus:

The month of March, we are focusing on winter changing into spring. The changes that it will bring, such as, growing flowers, bugs, the weather. The children have already noticed the bees out working again and flowers are just starting to bloom.

Extra clothes:

Please make sure that your children have extra clothes. They have been playing in the water recently and when they get wet, we change them so they can be more comfortable. Once they use their clothes please refresh their clothing stash. If you send the extra clothes with them, they can put it in their baggies. Thank you!

Names on Jackets:

Children can be forgetful and leave their jacket at school. To help us return jackets to their owner please put their name inside. Especially since someone else have the same jacket.

No Show Email or Text:

We do care if we do not see your child during their normal pick up. Emailing or texting will give us a good reference to keep track during pick up. My email is laura.n.alvarez23@gmail.com and cell is 831-915-3324.

Mark Your Calendars:

- Spring Break: April 15-22

Have a terrific week! Miss. Laura & the Afterschool Team
